

24 June 2021

SUPPLEMENTARY INFORMATION RE DISTRIBUTION INTO NSW AND VIC MARKETS

Wide Open Agriculture Limited (ASX: WOA) (“WOA” or the “Company”) refers to the announcement released on 23 April 2021 and provides the following supplementary information.

The order from The Market Grocer represents our largest single order of OatUP into a new and large market in New South Wales (NSW) and Victoria (Vic). The intent is that this will be the first of many orders.

The significance from this is that when the OatUP product arrives in NSW (estimated June 28), the Company will have broad distribution available in NSW and Vic, an objective previously stated in ASX announcements. This gives WOA distribution in two much larger markets than we are currently in, and it is the Company's expectation that it will accelerate sales of OatUP materially.

The Market Grocer is one of the largest grocery wholesalers servicing independent, specialty grocers and major supermarkets throughout Australia.
